Direct Deposit Fact Sheet

Forget about rushing out to cash your check

Instead, sign up for *Direct Deposit*. Then, your paycheck will be deposited directly into your own checking or savings account every payday – even if you're out of the office, on vacation, or too busy.

You can enjoy your free time.

It's convenient. It's safe – your paycheck can't be stolen or lost. It's reliable – you will still get a pay stub to show your pay, tax withholdings and deductions.

Here's how it works

Regardless of where you bank, you can sign up for direct deposit by filling out the form on the reverse side and giving it, along with a voided check, to the Payroll Dept.

That's all there is to it! As soon as the service is set up, your pay can be deposited directly into your account.

Please note that there may be a one pay period delay in implementing your Direct Deposit. This is necessary to verify computer recognition of the Bank Identification provided. You will continue to receive a regular paycheck until the Direct Deposit takes effect.

Your earning statement will show your gross pay, tax and other deductions, as well as the take-home pay that has been deposited to your account.

With direct deposit, you'll be able to enjoy your free time on payday, instead of having just one more errand to do.

Questions and Answers

❖ Do I need to switch my bank account to take advantage of this service?

Your pay can be deposited in just about any bank, savings and loan or credit union in the country.

❖ When will my pay be deposited?
